## Alter Kranen

WIRTSCHAUS - BAR - BIERGARTEN

Würzburger Hofbräu

[WWW.ALTERKRANEN.DE](http://WWW.ALTERKRANEN.DE)

The Alter Kranen is a reminder of the importance of the trade on the river Main, for the town of Würzburg. This baroque construction was built from 1767 to 1773 by Franz Ignaz Michael Neumann, the son of the famous baroque architect and builder Balthasar Neumann, on the crane quay on the river Main for Prince-Bishop Adam Friedrich of Seinsheim.

From the still existing treadwheel cranes, it is considered to have the most beautiful architecture. The crane was only in use for 73 years and was replaced by an iron crane. Although almost 80 percent of Würzburg was destroyed, the crane survived World War II completely undamaged and with an intact mechanism.

The brewery tavern that carries the same name has become more charming since February 2011. The house has been freshly renovated with a friendly, modern colour scheme. Equipped with good chairs, benches and tables which stand on beautiful wooden platforms, the terrace makes you forget daily routine. Including a beautiful vista upon the river Main, the fortress and the historic bridge Alte Mainbrücke.

In the beer garden the Würzburger Hofbräu beer on tap and freshly prepared meals are enjoyed.
